Attention all Instructors and Students:

We take pride in the continuous care and maintenance of all our aircraft here at Double Bridges. We are careful to keep up with routine service, as well as day to day problem oriented repairs and major maintenance as required for aircraft rental by the FAA.

No matter how hard we try to keep ahead of the problems, it is just impossible. The law of average says that sooner or later, the chances are good that you will have some type of problem with one of our aircraft. We ask that you be patient and cooperate with us in solving it. If it is a minor thing that you write up in the discrepancy log, please also bring it to the attention of someone here in the office. That way, it will not slip by unnoticed.

If your flight is cut short by some type of problem, be sure to record your hobbs meter time at that point, as you will be responsible for payment from the time out until the time of the problem.

The above instructions also apply if you are on a cross country flight and have a problem and cannot get back to Double Bridges. Your obligation for aircraft rental payment stops when the flight stops due to malfunction of the aircraft. We will make all efforts humanly possible to recover you and the aircraft as soon as possible.

Double Bridges will not be responsible for any expenses that you personally incur while the aircraft is down away from here. That includes, but is not limited to; overnight room and board, car rental and meals.

I, _____, (print name) have read, understand, and agree to the information contained in this statement.
